USE TF ACTION

WHAT IS WORLD HEART DAY?

been leading the World Heart Day movement – informing is the world's number one killer. Combined, conditions Heart Day, which takes place every year on 29 September, is an opportunity to highlight the actions that individuals can take to prevent and manage CVD.

This year's campaign focuses on motivating every country to have a national action plan for CVD. We know that too many countries do not prioritize heart health.

We will send a powerful message to leaders worldwide by calling on everyone to sign the first global petition prioritizing heart health.
