

# Summary of Discussions

**David Stewart** (International Council of Nurses)

## What works

- ✓ New strategy translate global initiatives into “nurse” language
- ✓ Key to present successful patient stories
- ✓ Nurses are essential for patient centered-care (to tackle issues such as adherence)

## What does not work

- ✓ Task sharing implies hierarchy, challenges to work as a team

## Targeting adolescents

- ✓ Nurses have a role in community training (including schools)

# Summary of Discussions

**Mohammad Daud** (Ministry of Health , Nepal)

## What works

- ✓ Multi-sectoral action NCD plan
- ✓ Scaling up of HEARTS (Started (1,2,3 and 4) in 2 district scaling up in more 10 districts (500 HCF) next year additional 20 districts)
- ✓ Training of trainers (synchronize this package with insurance scheme)

## What does not work

- ✓ Ongoing challenges in monitoring

## Targeting adolescents

- ✓ Ban of fast food in public schools

# Summary of Discussions

**Werner Hacke** (World Stroke Organization)

## What works

- ✓ Join and support Mexico Declaration and HEARTS package
- ✓ Synergies between stroke and cardiovascular prevention

## What does not work

- ✓ Increase engagement between stroke and CVD communities
- ✓ Increase attention to stroke care

## Targeting adolescents

- ✓ Not yet a target

# Summary of Discussions

**Amit Yadav** (Public Health Foundation India)

## What works

- ✓ Situation analysis to understand local barriers and actions
- ✓ Multiple stakeholders engagement
- ✓ Applying WHF Tobacco Roadmaps

## What does not work

- ✓ Low awareness and low taxes on tobacco in India
- ✓ Smoking cessation poorly supported

## Targeting adolescents

- ✓ Juvenile access law (7 years in prison)/ School education

# Summary of Discussions

Dolores Manese (Ministry of Health Philippines)

## What works

- ✓ Risk assessment for adults > 25 years old/Medicines are free (6 core CVD medicines)
- ✓ Use HEARTS tools for improve training for HCW for counseling

## What does not work

- ✓ Improve training community health workers

## Targeting adolescents

- ✓ School programmes

# Summary of Discussions

Daniel Lackland (World Hypertension League)

## What works

- ✓ Awareness programme
- ✓ Champions
- ✓ Collaboration between stakeholders

## What does not work

- ✓ Increase collaboration

## Targeting adolescents

- ✓ Art competition (poster)

# Summary of Discussions

**Susan Capps (Amgen)**

## **What works**

- ✓ Shared goals
- ✓ Addressing continuum of care

## **What does not work**

- ✓ More advocacy
- ✓ More research

## **Targeting adolescents**

- ✓ Family approach (adults and adolescents)

# ACTION POINTS

1. Adapt global NCDs/CVD initiatives according to local health contexts. Focus on scalable and affordable strategies/actions
2. Expand focus to include school children, adolescents and family approach
3. Alignment behind the global initiatives (WHO HEARTS & WHF ROADMAPS) and promote their dissemination and use
4. Create global forum to learn from successes and failures of implementation of global initiatives
