

BECAUSE EVERY HEARTBEAT MATTERS.

HEART HEALTH For everyone

"Our Members are our strength, driving change so that everyone can access cardiovascular care. We welcome ideas and innovation, tackle challenges in practice and policy, and convene to make our vision for heart health a global reality. Guided by science, our values of care, equity, community, integrity and aspiration inspire us to continue building on results."

PROFESSOR JAGAT NARULA, President of the World Heart Federation

A REWARDING MEMBERSHIP

WHF is a global leader and convener, striving for cardiovascular health through resources, advocacy, communications, and campaigns so that people can have healthier lives.

SHARING KNOWLEDGE

The latest research, findings and data come from a wide pool of specialists in heart care and policy, but we don't stop there: WHF communicates firsthand expertise on multi-disciplinary developments in cardiovascular disease (CVD) and related conditions to reach wide audiences.

INFLUENCING CHANGE

A trusted ally of international organizations, governments, medical and patient groups, WHF advocates for fair access to heart care, translates science into policy, and raises awareness of heart health. As the only organization representing the CVD community that is in 'Official Relations' with the World Health Organization (WHO), our partnership opens access to the developments that impact decisions. WHF also works closely with the Non-Communicable Diseases Alliance (NCDA) for improved prevention and control of CVD and NCDs.

BUILDING COMMUNITIES

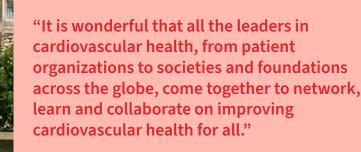

A united global CVD community amplifies the efforts and achievements of individuals and groups: with WHF, there is always a dialogue, an open door, a resource, an event all helping to break new ground in the fight to save hearts. Our platforms helps raise voices from all sectors and stakeholders, especially those of our Members and those they rally and represent. And stronger communities increase impact. We connect and convene many along the healthcare chain: practitioners, patients, policy-makers, caregivers and medicine and device specialists.

OUR VALUES

Heart health equity is a building block of every thriving society and cardiovascular health is a fundamental human right.

Our strength and credibility comes from our 240+ Members, including heart foundations, scientific societies and patient organizations, in over 110 countries.

INNOVATION & IMPACT

Knowledge, influence and community empowerment are keys to cardiovascular health, so that everyone gets information, care and treatment.

Wide-ranging 'tools at your fingertips' include research, policies grounded in science, training and leadership programmes, and campaigns and communications. You can get involved in many ways.

JOIN US TO GET EXCLUSIVE MEMBER RESOURCES AND EVENTS SUCH AS:

MEET AND SHARE AT THE WORLD HEART SUMMIT

an invitation-only event where government, civil society, industry, and academia address the most pressing challenges in global cardiovascular health.

COLLABORATE ON ROADMAPS & ROUNDTABLES

our series of guides, frameworks, and tools on heart care and heart health policy help point to a better future.

WHF CAPACITY BUILDING PROGRAMMES

through the WHF Salim Yusuf Emerging Leaders Programme – learn from world-class experts and participate in ground-breaking research projects.

ACCESS TRANSFORMATIVE GLOBAL PLATFORMS

such as **World Heart Observatory**– this portal is a one-stop collaboration hub and source of actionable data to promote prevention, treatment, and care.

CAMPAIGN ON WORLD HEART DAY

every year on September 29 – unite the voices of patients, health advocates, and policymakers, across all sectors. Our campaign reach continues to grow. Our heart heroes tell their stories year-round and our work in **The Lancet** and in WEF's **Global Agenda platform** keeps heart care in the spotlight.

"Being part of the WHF community is a win-win for **SASNET Ghana**. WHF membership is inclusive; it is about transformation and development so that Members stay on top of CVD and related matters. We appreciate the enormous opportunities to network, drive policy and improve professionally and as an organization."

Stroke Association Support Network Ghana (SASNET)
